Foundation Books in association with Centre for Environment Education, New Delhi, India. Hardcover. Book Condition: New. Dust Jacket Condition: New. First Edition. It also discusses the significance of appropriate tools and techniques that enable transition across the continuum of production, consumption, and environmental protection, as well as the preparedness of communities to monitor improved environmental quality. An expansive framework for resolving some prevailing dilemmas has also been proposed in this book. Contents Summary Preface The "Environment" in the Context of...
