RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 22 pages. Original publisher: Washington : U. S. G. P. O. , 2010. OCLC Number: (OCoLC)612307141 Subject: International broadcasting -- Government policy -- United States. Excerpt: . . . 9 The problems with this survey are twofold. First, the method-ology is not a scientific, random sample, but a group of recently ar-rived immigrants, who likely are, by definition, anti-regime. Sec-ond, there is no accounting for where these immigrants listened to Radio Marti or viewed TV Marti. For example, both are offered in the U. S. Interests Section, where the immigrants had to go to ac-quire visas for their travel to the United States. Higher listenership and viewership numbers are plausible, as evidenced by Lockheed Martin, a TV Marti contractor, and by the Cuban Government itself, both of which have offered evidence that TV Marti is potentially available across wide swaths of the country as a Grade A broadcast signal. At OCBs request, Lockheed Martin Aeronautics Advanced De-velopment Programs developed analytical models of the AeroMarti UHF Channel 20 and VHF Channel 13 broadcast systems, Cuban local TV transmitters operating on Channels 20 and 13, and Cuban 4 jamming transmitters based in Havana. These computer models were employed in an advanced broadcast simulation environment and used to develop an engineering assessment of the effectiveness of the AeroMarti airborne broadcast system. Broadcast perform-ance was evaluated both in an environment of co-channel inter-ference from neighboring Cuban TV stations and when Havana-based jamming is active. According to Lockheed Martins model, TV Martis Channel 20 broadcast signal potentially extends over 21. 1 percent of the main island of Cuba ( outside Havana ) during jamming while broad-5 casting along the Matanzas flight profile. The AeroMarti Channel 13 broadcast model indicates potential coverage over 22....
