Dover Publications Inc., United States, 2000. Miscellaneous print. Book Condition: New. 274 x 202 mm. Language: English . Brand New Book. Stained glass windows have decorated churches, homes and public buildings for centuries. In the United States, the revolutionary achievements of designer Louis Comfort Tiffany propelled the popularity of stained glass to new heights during the late 19th and early 20th centuries. The striking masterpieces displayed in full color in this unique collection include 24 religious and secular windows painstakingly created by talented artisans in the Tiffany studios from the 1870s through the 1930s. These beautiful works of art were the culmination of years of experimentation that saw the development of a special type of glass and a variety of surface textures as well as the introduction of vibrant and breathtaking colors. Tiffany windows were eventually commissioned not only for the opulent homes of wealthy industrialists but also as memorials in churches and decorative additions to college, libraries and government buildings. Included in this stunning collection are a superb garden scene, depicted in a 20-foot-wide triptych window; a floral window of trellised trumpet vines; several windows representing pastoral New England landscapes; a historical portrait window designed by Howard Pyle, entitled Antony van Corlear, Trumpeter of New Amsterdam (c. 1896); and numerous memorial windows, including Holy City (c. 1902) and River of Life (1921). Each exquisitely crafted window has been meticulously photographed to bring out its brilliance and sheer beauty. A descriptive caption on the reverse side of every card identifies the subject, its location and, if available, the date it was created. Rich in glorious color and turn-of-the-century charm, this impressive collection of modestly priced cards is sure to delight collectors as well as art and antique lovers everywhere.
