Summary: "Long awaited, much anticipated, and truly a magnum opus, Body Encyclopedia brings together many decades of research and clinical practice. Lisbeth Marcher, Sonja Fich, and their colleagues have produced an unparalleled system of both diagnosis and treatment that will place body psychotherapy, and especially Bodydynamics, in the mainstream of both psychotherapy and medicine. This work is both scientifically rigorous and accessible to all professionals in the field of health care." -Jacqueline A. Carleton, PhD, editor of the United States Association for Body Psychology Journal "I believe that most schools of psychology and therapy have failed to understand fundamental ways humans use to make meaning about themselves in the world. Marcher, Fich, and their Bodydynamic colleagues make a stunning step forward in overcoming this error by providing a fundamental developmental framework that helps us to understand the pathways humans move through and how to work effectively with our patients, young and old." -Ed Tronick, PhD, professor of psychology, University of Massachusetts; chief faculty, Infant-Parent Mental Health Post-Graduate Certificate Program, University of Massachusetts; and director, Child Development Unit, Children's Hospital Boston, Harvard Medical School...
